

Environmental Policy 2023

Creffields (Timber & Boards) Ltd appreciates that it has a duty to the environment. The company will strive to carry out its business in ways that are as environmentally friendly as can be.

1. Creffields will not knowingly act in a manner which may damage the Environment or engage in activities which may promote such damage from its suppliers.
2. Creffields will constantly encourage its staff and suppliers to maintain sound environmental practices as much as possible. We promote the use of energy efficiency within the company as well as a reduction in waste material. All company staff will be entrusted to review their activities in this regard.
3. Creffields will never consciously purchase or supply goods that have not been legally sourced or that these goods will not contravene any known legislation. Creffields will, as much as possible only purchase goods from bodies that comply with 3rd party accreditation. The likes of FSC & PEFC for which Creffields have Full Chain of Custody Certification apply. All goods purchased will be EU approved to EU 995/2010.
4. Waste Disposal. Creffields operate within all known Legislative requirements. All waste disposal is provided by "Hadley Recycling and Waste Management" who are fully approved with the Environment Agency (Permit number EPR/CB3909UF).
5. Creffields will provide a safe working environment for all its staff and will ensure that it operates in accordance with all known current Legislation. All staff will receive the necessary training so they can carry on their work in an environmentally responsible way.
6. To ensure Creffields adhere to current Legislation will we review this Policy on an annual basis.
